## NOTES:

Students need to take five courses from the list, or petition to waive one with an alternate course not on the list.

a: Student's fieldwork and core departmental project need to have a reproductive health focus; b: Must attend at least 3 sessions of RHIG or Anti-Trafficking or Sex and Cookies; \*: An asterisk next to a course indicates that the student's final paper or project in that course needs to be on a RH topic; "x": indicates that one can use a non-course activity to achieve the competency
