Students need to take five courses from the list, or petition to waive one with an alternate course not on the list. Red dates describe the most recent offering of the course. a: Student's fieldwork and core departmental project need to have a reproductive health focus; b: Must attend at least 3 sessions of RHIG and/or Sex and Cookies; \*An asterisk next to a course indicates that the student's final paper or project in that course (ex. 211B) must be on a RH topic; "x": indicates that one can use a non-course activity to achieve the competency
